PARENT CUE CARD APRIL 12

WHAT YOU NEED:

5-10 plastic Easter eggs per person (If you don't have these already at home, draw the amount of eggs on paper and cut them out)

WHAT YOU DO:

Give each person 10 eggs and ask them to separate the halves. Everyone should keep the bottom half of each egg while putting the top halves in a big pile all together. Have someone call out "GO!" and then everyone races to be the first to find their matching egg halves and get all their eggs put back together. After that, if you haven't already had an egg hunt today, do one now! Keep the teams the same as before and let one team hide the eggs. The other team tries to find all the eggs—while being timed, of course! Then the teams switch roles.

TALK ABOUT THE BIBLE STORY:

- What's your favorite part about celebrating Easter?
- Why do we celebrate Easter? (Jesus put us first by dying on the cross and raising from the dead so we can have a relationship with God)
- Who did Jesus give up His life for? (Everybody!)
